RE: Response to Freedom of Information Act Request: EPA-HQ-2013-008177

Dear Ms. Konspore:

This letter is in response to your above-referenced Freedom of Information Act (FOIA) request to the U.S. Environmental Protection Agency (EPA). In your FOIA request of July 15, 2013, you requested a listing of all surface impoundments managing coal combustion residuals.

As part of EPA's ongoing national effort to assess the management of coal combustion residuals, the EPA is assessing the structural integrity of surface impoundments at coal-fired power plants. The EPA has created a table of the assessment results that includes a list of the surface impoundments you are seeking. This information is available in a file titled "Summary Table for Impoundment Reports" on our website at

<http://www.epa.gov/epawaste/nonhaz/industrial/special/fossil/surveys2/index.htm>.

The EPA is in possession of preliminary list of surface impoundments for 26 facilities that were part of our last round of structural integrity assessments. We are unable to provide you this information because this list is a preliminary one that we believe is exempt from mandatory disclosure under applicable FOIA exemptions. Specifically, the EPA is withholding the preliminary list of surface impoundments located at the 26 facilities listed below under FOIA exemption 5 (privileged inter- or intra-Agency memoranda).
